

Implementing Web Application

Name	YUVARANI K
Team ID	PNT2022TMID01394
Project Name	Inventory Management System for Retailers

TASK

➤ Create UI to interact with application

- Registration Page
- Login Page
- Display items in the Dashboard
- Adding items
- Test it

➤ Create IBM DB2 and connect with Node.js

Create UI to interact with application

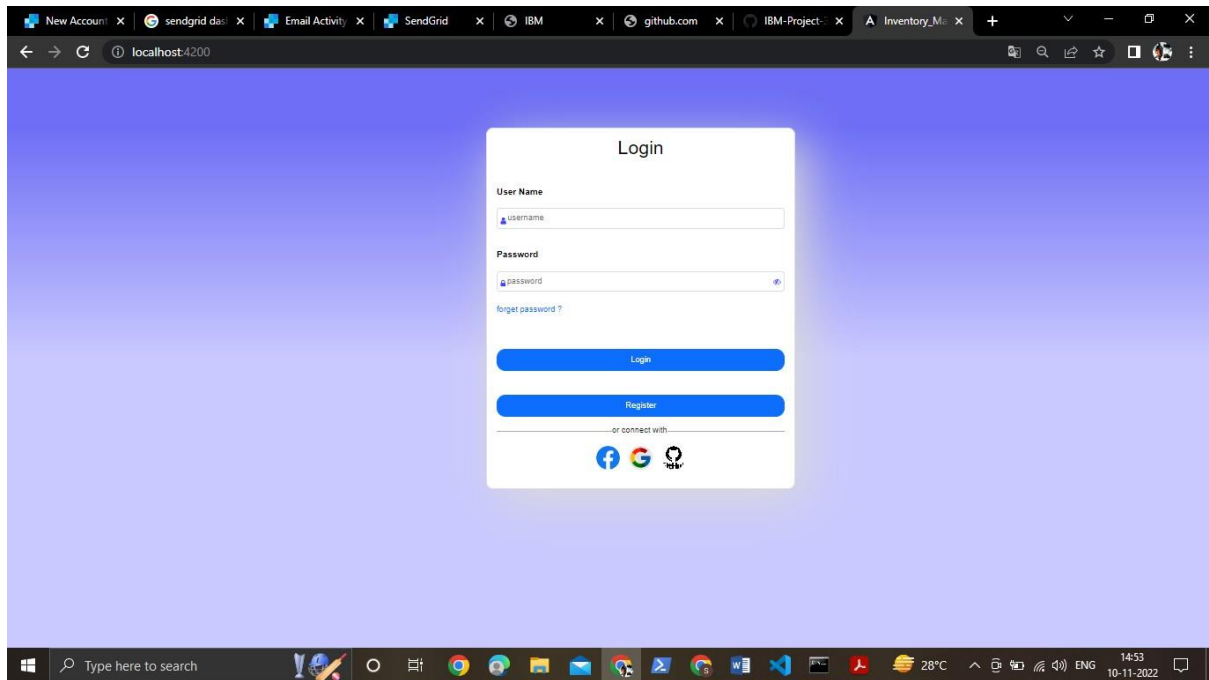

Registration Page

The screenshot displays a web browser window with multiple tabs open, including 'New Account', 'sendgrid dashboard', 'Email Activity', 'SendGrid', 'IBM', 'github.com', 'IBM-Project', and 'Inventory_M'. The active tab is 'Inventory_M', showing a 'Create New Account' form on a purple background. The form has the following elements:

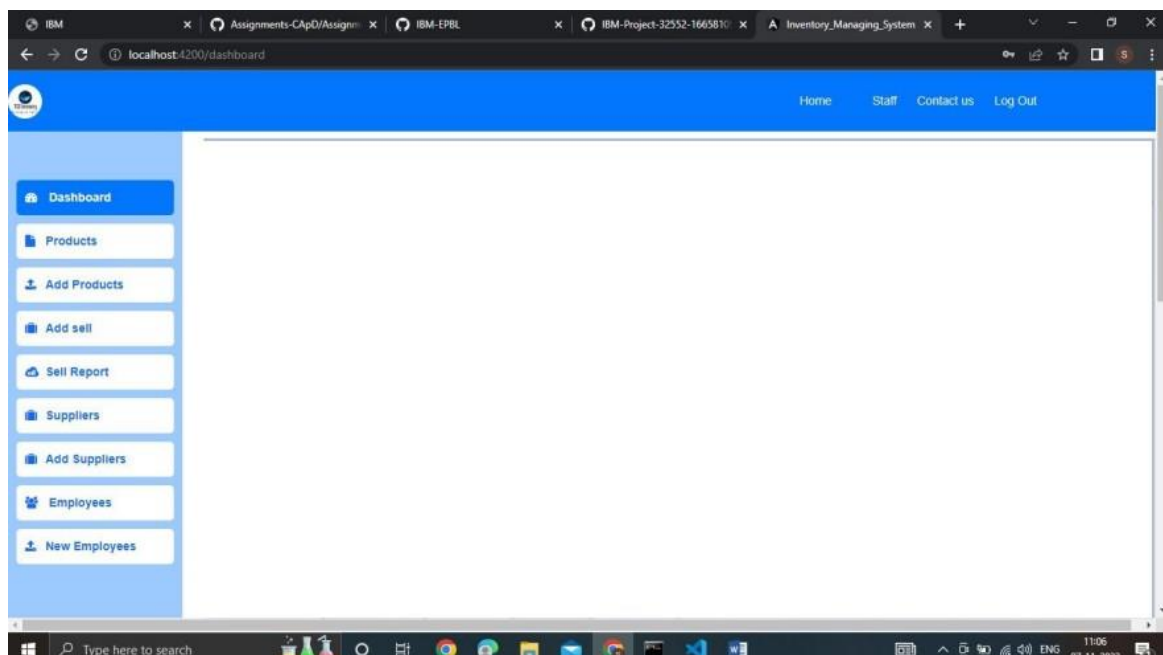

- Create New Account** (Title)
- User Name** (Label) with a text input field containing 'username'.
- Email** (Label) with a text input field containing 'Email'.
- Password** (Label) with a password input field containing 'password'.
- Register** (Blue button)
- Already Have an Account** (Text link)
- Login** (Blue button)

The Windows taskbar at the bottom shows the search bar, task view button, and several application icons. The system tray on the right indicates the temperature is 28°C, the time is 14:53, and the date is 10-11-2022.
